

Why Puerto Vallarta?

Last Updated Sunday, 30 November 2008

Frequently, I get requests to do personal Hypnosis consultations or sessions in a city other than Miami or Puerto Vallarta, and although in the past I had accepted invitations to other locales, currently I'm only accepting clients who live or are willing to travel to Miami or Puerto Vallarta. For 2009, I'll be seeing clients almost exclusively out of Puerto Vallarta, since I'll move there full time before the year ends.

Those who haven't been to Puerto Vallarta yet, might wonder why I decided to leave Miami and open my hypnosis office down in Puerto Vallarta... the images below only start to convey the magic and outstanding beauty of Puerto Vallarta. Come down here for your hypnosis sessions and not only will you effect the change you want in your life, you might pick up a new favorite vacation destination (pictures are of the actual hotel where you'll stay during your visit to Puerto Vallarta while you have your hypnosis sessions or hypnosis training with renowned Hypnotherapist Omar Chavez, during your stay all your meals and drinks are included so you can concentrate on achieving your goals through hypnosis and you won't have to worry about a thing as the hotel also includes tons of free activities and entertainment for you and your family if you bring them along).
